

# Lara Bautista Castellanos

## UX Engineer

 [linkedin.com/in/larabautista](https://linkedin.com/in/larabautista)

### EXPERIENCE

#### UI/UX & Front-end Developer

vitalera | Barcelona

Nov 2019 – Present

*2023 – Present: Strategic UX/UI Role (Design Systems Focus)*

Led the Design System (comprehensive UI component library), ensuring consistency and scalability across multiple platforms.

Close collaboration with Engineering and Product teams to design usable and technically feasible solutions (Cross-functional collaboration).

Validated design decisions and product strategies through user research and feedback analysis.

*2019 – 2023: Hybrid UI/UX & Front-end Role*

Led the development of the cross-platform UI component library using Flutter, setting the base for team efficiency.

Managed the full product design iteration loop (from wireframe to high-fidelity mockup) balancing the UX vision with technical constraints.

Developed interfaces for mobile (Flutter) and web (HTML, CSS, JavaScript), understanding the direct relationship between design and code.

#### Software Developer Intern

vitalera | Barcelona

Oct 2019

Migrated the front-end to Bootstrap 4, improving responsive design and user experience.
